

slot antenna

GigaSektor 16dBi/60 6GHz

Sector antenna of vertical polarization and 16 dBi gain, designed to work on 5,9 – 6,1 GHz.

It has 60° horizontal beamwidth of 3 dB.

GigaSektor 16 dBi/60 is used to work as base antenna and thanks to its high gain- as client antenna as well.

The antenna has closed circuit for DC.

specifications

Gain
16 dBi
Frequency
5900 - 6100 MHz
Polarization
vertical
Backward Radiation
n/a
Vertical Beamwidth
7° for -3 dB
Horizontal Beamwidth
60° for -3 dB
VSWR
< 1,5
Impedance
50 Ohm
Connector
N/Female type
Dimensions
456/140/40 mm
Weight
560 g
Mounting Kit
diameter 30-50 mm
Wind Loading
80 m/s
Warranty
36 months
