

slot antenna

V-LineSektor 17

Sector antenna of vertical polarization, designed to work on 2,4 GHz. It is used as base station between a lot of other antennas, which work on horizontal polarization.

The 17 dBi gain makes creating links easier for a large distances.

The casing of V-LineSektor 17 is designed with very resistant and low-loss ABS resin, which makes antenna weatherproof.

specifications

Gain
17 dBi
Frequency
2400 - 2500 MHz
Polarization
vertical
Backward Radiation
n/a
Vertical Beamwidth
14° for -3dB
Horizontal Beamwidth
120° for -3dB
VSWR
1 to 1,5
Impedance
50 Ohm
Connector
N/Female type
Dimensions
700/139/45 mm
Weight
800 g
Mounting Kit
diameter 30-50 mm
Wind Loading
n/a
Warranty
36 months
